Bell AgriPro Sprayer kit (16 L Series)

The Bell AgriPro Sprayer Kit combines performance, reliability, and versatility — all built around a consistent 16L capacity design. Each model features a unique ergonomic layout, distinct accessory set, and upgraded pump and battery systems, giving distributors flexible options to meet diverse client demands across regions and applications.

These models are powered by efficient Tianneng batteries paired with 3.1 LPM high-performance pumps, ensuring steady spray pressure and consistent drop-let output. Every unit includes multiple nozzle types, durable back straps, and five-layer laminated packaging for safe global shipment.
